**Anne Campbell receives advanced practice wound care training in
Edinburgh, Scotland**

(Hendersonville, N.C.) Anne Campbell, RN, clinical coordinator of the

[Comprehensive Wound Healing Center at Pardee](#), has received advanced practice

nurse training through the Napier University School of Nursing in Edinburgh, Scotland.

During her academic tour, Campbell studied wound care at both the Royal Infirmary and the Royal Hospital for Sick Children. In addition to clinical formation, Campbell received training in nursing leadership and care management. Her studies in Scotland will advance Campbell toward the final phase of a Master of Science Degree in Nursing, which she expects to complete in 2012.

“We are thrilled for Anne,” said Rachel Beal, the center’s program director. “Not only will she be stronger for the experience, but as our nurse leader, what Anne learns will enrich the care all our clinicians provide to our patients.”

Campbell works closely with Charles Albers, M.D., FACS, and Michael Jones, M.D., FACS, at the Comprehensive Wound Healing Center, a partnership between Pardee Hospital and Diversified Clinical Services, the leading national provider of wound care services that touts an 88 percent healing rate within 31 median days-to-heal and a 95 percent patient satisfaction rate.

Margaret R. Pardee Memorial Hospital
800 North Justice Street, Hendersonville, NC 28791
